

## About Us

Digital Surveying and Engineering Services (DSES) takes the opportunity to introduce itself as one of the leading organization in the field on land surveying, mapping and drafting.

DSES has highly qualified and experienced personnel on roll to serve the clients in an efficient and professional way in the field of surveying, mapping and drafting.

Because of highly qualified and experienced surveyors we have no hesitation in claiming that "Digital Surveying and Engineering Services" is a specialist in providing excellent services in this field.

We have sufficient quantity of latest surveying equipments, computers, drafting, plotting instruments and vehicles to carry out land surveying and drafting services in United Arab Emirates & Azerbaijan.

DSES is an approved company for carrying out surveying operation with Oil & Gas Services Department and providing surveying services to the above and other renowned organizations of UAE & AZ. While providing surveying services, we maintain health & safety, quality assurance, proficiency and required standards.

DSESE is therefore rightfully looking forward for and invitation from your esteemed organization for the provision of surveying, drafting, plotting services as well as supply of qualified surveys along with all surveying equipment etc., for your present and future projects. We wish to maintain the best business relation with you all the time.
